CALEB CHANDA MWELWA

Ndola, Zambia | +260774693327 | calebmchanda@gmail.com

SUMMARY

A detail-oriented Software Engineer and Backend Developer with a B.Sc. (Hons) in Software Administration and Information Systems. Experienced in developing systems, websites and applications using Java/Spring Boot and Python/Django, designing APIs, and deploying containerised applications with Docker. Strong skills in software engineering, cybersecurity, and web development.

EXPERIENCE

08/2026 to Current

Freelance Developer and IT consultant

- Developed and implemented software solutions to meet client requirements, enhancing system functionality and user satisfaction.
- Gathered requirements and translated business needs into tailored technical solutions, improving client satisfaction and project success.
- Advised clients on digital infrastructure and technology decisions to ensure alignment with business objectives and enhance operational outcomes.
- Troubleshot and debugged software to identify and rectify discrepancies, ensuring optimal performance.

07/2026 to 08/2026

Technical consultant

Legacy League Technologies - Kazan

- Assessed architecture of Laravel 10/PHP application, identifying optimisation opportunities to enhance system efficiency.
- Recommended system improvements and upgrades to align with evolving business requirements and technology advancements.
- Analysed existing systems to pinpoint improvement opportunities, facilitating performance enhancements.
- Improved client satisfaction with timely resolution of their technical concerns.
- Created and maintained documentation of technical procedures, user guides, and troubleshooting steps to support knowledge sharing.
- Created project reports to enhance transparency and track project progress.

01/2025 to 06/2025

Junior Java Backend developer trainee

Sberbank - Kazan

- Completed Sber's Java Backend Development training programme, developing a personal finance management REST API with Java and Spring Boot
- Implemented RESTful APIs to facilitate seamless communication between frontend and backend components, boosting application functionality.
- Integrated third-party services and APIs, enhancing application capabilities and user experience.
- Accelerated skill development through hands-on practice, enhancing problem-solving capabilities.
- Analysed problems and evaluated solutions, informing decisions that enhanced project outcomes.
- Streamlined processes by applying new skills, improving overall work efficiency.

SKILLS

- Java and Spring Framework
- Python and Django
- API development
- SQL proficiency
- Microservices architecture
- Systems design
- Version control with Git
- Linux operating system
- Frontend development
- Technical documentation
- JavaScript programming
- Interpersonal communication skills

EDUCATION

2026

Bachelor of Science: Mathematical Software and Administration of Information Systems

Kazan National Technological Research University - Kazan, Russian Federation

- Graduated with Distinction, achieving a 4.87/5.0 GPA.
- Recipient of the Russian Government Scholarship.
- Honoured by the institute for academic achievement and performance.
- Completed additional professional training in Java Backend Development through Sber, with practical experience in Java, Spring Boot, PostgreSQL, Spring Security, and REST API development.
- Completed a Microsoft Junior C# Engineer certification.
- Completed coursework toward the Cisco Junior Cybersecurity Analyst certification path, developing foundational skills in network security, cybersecurity, and threat analysis.
- Pursued additional training in Python and software development through Google and other professional learning platforms.
- Developed and deployed Erva Learn, a full-stack educational platform, as a major academic/software engineering project using Python, Django, React/Next.js, PostgreSQL, Docker, and AI-powered services.
- Participated in university and extracurricular technical projects involving web development, cryptography, cybersecurity, and software engineering.
- GPA: 4.87/5.0

2019

GCSEs

David Kaunda National Technical Secondary School - Lusaka, Zambia

01/2016

Horizon School - Lusaka

- Recipient of a full sholarship to study at Horizon School.

LANGUAGES

English - Native: First Language

Russian - Fluent: C1

Advanced

German - Beginner: A1

Beginner

Bemba: C1

CERTIFICATIONS AND LICENCES

- Foundational C# with Microsoft - Issued by Microsoft (March 2024)
- Network Defense - Issued by CISCO (June 2024)
- Networking Basic - Issued by CISCO (May 2024)
- Software Engineering Essentials - Issued by IBM (July 2026)
- Java App Development (Fundamentals, OOP & File I/O) - Issued by IBM (September 2026)

- IBM Java Developer - Issued by IBM (November 2026)

AWARDS, ACCOMPLISHMENTS, AND HONOURS

- Best-graduating foreign student of the Class of '26
- Accomplished member of the university cultural and musical program.
- Winner of 2022 Russian Language Olympiad among foreign students in the Russian Federation.
- Two-time chess tournament (KNRTU)

HOBBIES AND INTERESTS

- Guitar
- Chess
- Reading
- Photography

- References are available upon request.

PROJECTS

- Erva-learn - A tutor–student marketplace and LMS within the Erva Suite platform: AI-powered teacher recommendations, onboarding surveys, teacher profiles, messaging and booking. Django backend, Next.js frontend, PostgreSQL with pgvector, an AI microservice, Redis and Nginx, deployed with Docker Compose to a DigitalOcean server behind Cloudflare DNS.
- Finance Tracker - A personal finance REST API for tracking income and expenses per user, secured with JWT and Spring Security
- F1 Telemetry - a real-time Formula 1 telemetry platform focused on the Mexican Grand Prix, using Java Spring Boot for backend services and Python for telemetry processing.
